

ABOUT US

BGM is a leading force in industrial development and Special Economic Zone (SEZ) in Cambodia. We specialize in developing world-class industrial zones that provide businesses with a strategic advantage through government backed tax incentives, fully equipped infrastructure, and a business friendly regulatory environment.

At BGM, we envision a thriving industrial ecosystem where manufacturers and businesses can cluster together, fostering innovation, efficiency, and economic growth. Our SEZs are designed to attract a diverse range of industries, from manufacturing and logistics to high-tech production and value-added services. By offering streamlined investment processes, superior logistics connectivity, and sustainable infrastructure, we ensure that companies operating within our zones gain a competitive edge in both regional and global markets.

Our partnership driven approach allows us to work closely with government agencies, investors, and industry leaders to create an environment that promotes long term success.

With Cambodia emerging as a key industrial hub in Southeast Asia, BGM is committed to shaping the future of industrial development by providing businesses with the foundation they need to grow, innovate, and expand. Whether you are looking to establish a new factory, relocate your operations, or optimize your supply chain, BGM offers the ideal environment to turn your vision into reality.
